

# NATURE AND CULTURE EDUCAMP

Available April-May / Mid-August - Mid-October

Come experience our EduCamp at Ali-Kola Farm in Kokemäki by attending school lectures with local students, followed by learning experiences in a camp offering an Experience Meets Learning (EML) concept based on learning through nature and outdoors activities. You will gain an experience of Finnish education, culture and relationship to nature.

Our Nature and Culture package:

- Basic (3 days of school and activities + 1 leisure program day)
- Medium (4 days of school and activities + 1 leisure program day) - exemplary package attached
- Extra (5 days of school and activities + 1 leisure program day)

For 10-16 students + the supervisors with private facilities (maximum 21 + supervisors, with shared facilities) - we provide an English speaking tour leader.

We operate on the West Coast of Finland, in the Satakunta Region, where you will find 2 UNESCO World Heritage sites in Rauma, national parks, beautiful rivers, forests, and the most beautiful fine sandy beach of Finland!

All services are offered in English, so students and their supervisors should be ready to communicate in English. Interpretation services are offered at extra cost.

Experience and Education - EduTravels with joy!
