

ENJOY NATURE LIKE A FINN!

Guided daytrip to Parkano and Karvia
available on request: September

SAMK EduTravel welcomes you to spend a unique day with us while getting to know to Finnish culture, history, and nature! We are going to spend a fun day at Lauhanvuori-Hämeen kangas UNESCO Global Geopark in Karvia, which's geology has transformed from mountaineous area into a mire area. There you will learn about Finns' close relationship with nature and its diverse health benefits.

On this daytrip we explore mire nature on short trail by Lake Neva-Lyly and hike on Alkkianvuori Hill, the highest point of Karvia. After hiking we drive to Parkano at SyVilla cottage by shore of lake Kovesjärvi. There we spend time like a Finn by relaxing in hot sauna, optionally swimming in cold lake water, making lingonberry jam and playing outdoor games, all important part of Finnish summer cottage culture. Come to experience authentic and real taste of Finland together with others, while making new friends and memories!

This daytrip is available on request in September.
You can book it through e-mail: edutransel@samk.fi
The group size is 15-19 persons, to create togetherness.
